Terms of Sale

All goods are supplied as new items unless otherwise specified.

Special offer items carry a full warranty subject to the exclusions listed below.

Account customers; we retain ownership of all shipped product until payment has been made in full.

Non-account customers will be required to pay for purchased items prior to shipping.

Consignments must be checked for damage in transit upon receipt.

Always sign for goods stating "***unchecked***" on the carrier's delivery note; failure to do this may invalidate any claim we may be required to make on your behalf

Full terms and conditions upon request.

Warranty

Our products offer excellent build quality using tried and tested components - we will do our utmost to assist you in any situation where a fault develops.

In the unlikely event of a failure occurring we do appreciate customer cooperation as this will assist in reaching a speedy solution thereby keeping all parties happy.

If you do encounter a problem this will generally be for one of the following fairly obvious reasons:

1). You've blown one or more components through incorrect use.

2). There's a component problem which did not appear during final test before shipping..

Unfortunately, for reason number one you are not covered and the cost of repair will be down to you, including all shipping charges. For reason number two your problem will be resolved without charge.

We can tell immediately if a component has been overdriven so in your own interests do not remove or replace any components until you have spoken to your dealer or contacted S.P.A Systems Ltd directly on 08456 44 22 09..

Please note that your warranty will become invalid if:-

a] any component has been removed or otherwise damaged before inspection has been completed by your dealer or ourselves,

b] repair has been attempted by a company (or individual) not authorised to carry out repairs unless previously authorised by ourselves.
